

Description

The 829 *Twillwipes* are made of 100% cotton in a tightly woven twill that effectively traps contamination. The wipes are lymanized, a cleaning treatment processed at a neutral pH without any starch or binders, to insure cleanliness and quality. They have excellent absorbency and strength when cleaning up spills and cleaning solutions. The wipes are thermally stable, solvent resistant, and static-free.

Applications & Usages

The wipes are for use in controlled environments that maintain a low level of pollutants such as dust, airborne microbes, aerosol particles, and chemical vapors. They are intended for use in clean rooms, offices, and laboratories. They are recommended for cleaning lenses, equipment, precision instrumentation, and many other sensitive surfaces.

Features and Benefits

- **100% cotton twill weave**
- **Strong texture cotton**
- **Super absorbent**
- **Solvent resistant**
- **Thermally stable**
- **Low to no lint formation**
- **Static-free**
